Water Shut Off Scheduled for October 7

Approximately 20 Residents to be Affected

SEGUIN, Texas – The City of Seguin notifies residents of a temporary water shut off scheduled for Tuesday, October 7.

Water service near the intersection of College and River Streets will be shut off from approximately 9 a.m. to 2 p.m. Approximately 20 residents will be affected. The shut off is necessary for the ongoing River/San Marcos/Heideke project.

About the RSMH Project

The River/San Marcos/Heideke project includes utility, storm drainage, water, electric and sewer upgrades. The streets will also be reconstructed and sidewalks added. The improvements will alleviate current concerns with storm water drainage, sewer issues and water pressure. Streets included in the entire project include Milam between and Nolte, San Marcos between Kingsbury and Court, River between College and Mountain, Mountain between River and Gravel, Bauer between Court and Mountain, four side streets between River and Austin, and a small portion in the Glen Clove Subdivision. Seguin City Council selected Jordan Foster Construction for the work. The project is expected to take two years to complete.

About the City of Seguin

Seguin, Texas is located off Interstate 10, about 35 miles east of San Antonio. Seguin is big enough to boast a top-rated university and a state-of-the-art hospital. More than 25,000 residents enjoy a range of cultural, recreational and employment opportunities. Seguin's robust diversified economy features a steelmaker, a manufacturer of automotive parts and plants making roadside mowing equipment and building materials. In 2009, Seguin was proud to be selected by Caterpillar as the site of a major new engine manufacturing facility.
